III. **MANAGER'S REPORT:** Vicky Langer, Association Manager, reviewed items from her written report and logs with the Board and the members present. The following items were highlighted:

- **Asphalt Project Update:** A contract has been requested from CPM (California Pavement Maintenance) and will be forwarded to the Board and the Attorney for review. CPM is scheduling the approved work for mid-August.

ordered. A decision is being requested about whether to separate the entry control box (add a new one) for Gates 13 and 14.

- **Grazing:** We have received some more complaints about the grazing, mostly from homeowners that we know are not in favor of the project overall, including that the grazing contractor is using Springfield water. The second phase of this year's grazing project is nearly complete.
- **Pool Rules:** The Board is being asked to consider adding the rule in the CC&Rs that limits guests of owners to common areas to no more than 10 to the Pool Rules. This will be discussed when the Handbook is updated. Recently complaints have been received regarding large parties at the Hillcrest Pool.
- **Miscellaneous:** Vicky noted the several items in her report to the Board, including the following: The area on the hill at the end of Live Oak Lane has gotten some new plants as well as a new battery operated irrigation controller. 3812 Heather Court plans to appeal an ARC denial for a paint color that is not on the approved list. Gate 18 had a bent picket that was repaired. Gate 3 gap that was left after the first repair (after being hit by garbage truck) was fixed.

Among the items discussed with Bianco Landscape Management are the process and pending proposals for plant replacement, appropriateness of plants for various areas, keeping up with plant replacements, color spots (on hold due to drought), trail maintenance for weeds, and water saving measures. Replacement of controllers with "smart controllers" and changing out sprinkler heads to more water efficient ones are in the reserve study. Paul Marcillac has done drawings for remodeling Gates 8 and 20 as well as an area on Vivien. Bianco has offered to do a demonstration of Hydretain (one side of a gate area) to show the Association its effectiveness. The Association has attained the water savings goals set by the City of Rocklin.
- C. Finance Committee:** Bill Jarrett reported on the June meeting and summarized where the Association is financially. Bill noted account balances, income for the month of June, and year-to-date, and income versus expenditures for the month of June and year-to-date. Bill made a

recommendation suggesting that \$200,000 be transferred to new CDs (staggered) with UP Capital (who will choose the banks). This money would not go into the portfolio they are already working with. A bid from CPM for such a project has been requested.
- H. Other Trail Issues:** Bea and Ken Morrow gave the Board background and information on their concerns about the steep slopes and condition of the trails. She reported that Ken has been asking the City for information on the development of the trails. The trails allegedly were not installed according to the conceptual plans/drawings. - I. ARC Appeal – 3812 Heather Court:** The Homeowner has requested that this matter be tabled to the next meeting as she is working on getting a photo rendering of her home with the proposed body color “Mendocino Hills”. He reported that his fence was used as the upper fence and that the fence that was put around his lot was not electrified. He also complained that the grazing contractor tapped into Springfield water rather than using his water tank. He asked for an apology from the contractor, a fence repair, and a new plant that the sheep ate in his yard. He also asked that this should be addressed future grazing contracts.
- **Grazing:** Ken Morrow stated that he was very happy with the grazing project.
