Re: Access Request – Hillcrest/RHS Campus

Dear Ms. Bell

We wanted to thank you again for working with staff on the RHS back of campus fence access concerns.

As we have discussed on the phone, the philosophy to design public schools is to have the entrance to the school located at the front of the campus and not have a private entrance for the exclusive use of a specific group of residents, such as a gated community. Having the entrance to the campus at the front of the campus allows site supervision to be provided at the most optimal operational cost. This also provides safe campuses by having one main point of entrance at the front of the campus.

Superintendent Stock has spoken to Greg Benzel informing him that before any of the steps listed below can be discussed that the Whitney Oaks Homeowners Association would need to agree to provide public access to the area where the walkway and entrance to Rocklin High School would be located so that the public can benefit from the use of this entrance. The District cannot use staff, taxpayer funds, and other resources toward a project such as this unless it would benefit the entire Rocklin community.

The following steps would have to be approved and funded in order to move this project forward for possible District consideration.

- The total construction cost would have to be private funded by an outside group not the District.
- The continual on-going maintenance would have to be private funded by the outside group not the District.
- The Whitney Oaks Homeowners Association would agree to have public access to this area where the walkway would be located so that the community can benefit from the use of this entrance.

Let me know if you have any questions or need more information regarding this direction from the District. Thanks Melissa.

Respectfully,

A handwritten signature in cursive script that reads 'Craig Rouse'.
